VIRTUAL ONLINE MAGIC SHOW | Approx. 1 Hour**

Our favorite magician, Michael Kent, is offering a virtual online LIVE magic show. This hour-long show is exclusive to your college (only people with the web address can watch and participate). The show will be hosted via YouTube Live. We will give you a unique web address at michaelkentlive.com to view the show and you can send that address to all of your students via email and non-public forums. It will go live at the posted date and time. By clicking through the embedded video to YouTube, they can participate via the chat function on the right side of the screen. The show is professionally produced in Michael's home studio and we can provide metrics of how many watched after the show. BONUS: We're also able to keep the recorded live show active for 7 days so you could send out a "Did you miss the show? You can watch it here" message to your students!
